

**R E M A R K S**

The present amendment is submitted in order to correct claim 1, which the examiner had not entered in the originally-filed amendment under 37 CFR 1.312. Claim 1 would now be amended just to change "docking" to -- coupling --. This should have no effect on the allowability of the claim ,and provides proper antecedent basis.

No new matter has been added.

Respectfully submitted,

Milton S. Gerstein
